Subject: Thank you.

Dear Sir,

In May of this year my youngest son, Avery Parkhurst, had the privilege of traveling to Poland due to the generosity of Sam Divinky and working with your organization. He described his experience as life changing, and means those words in their truest sense. Avery is by nature an intelligent and compassionate young man. Because of his participation he grew even more mature, insightful, altruistic, and proud of his history.

Upon his return to Kansas City, Avery authored an article to share his experience and educate our community about you, your organization, and the holy work that has been accomplished. It gathered a great deal of local interest. G-d willing, some of the response will translate to support for on going and future projects. I know that Avery himself would very much like to continue being involved.

May Hashem bless you and your family. May you always go from strength to strength.

All the best,
Sherrill Parkhurst

Enclosed is a link to Avery's article. I thought you might enjoy seeing your work and ideals through his eyes.
