Dear Dr. Park,

Thank you for being one of 38 applicants to submit a proposal for a Staenberg Family Foundation Anything Grant. We had requests for more than \$150,000 in funding, so the selection process was extremely challenging. I am writing to let you know that unfortunately your project was not one of those selected for funding.

An advisory committee was charged with reviewing all applications and making recommendations to the Staenberg Family Foundation board of directors, who made the final decisions. There were so many wonderful, creative and pressing requests, but a limited amount of funding was allocated to this process.

If other opportunities like this arise in the future, we encourage you to apply. Thank you for the important work that you and your organization do in our community, and thank you for being a part of this process.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mindee'.
